Newport Daily News.

VOL. XXV--No. 51. NEWPORT, R. I., THURSDAY AFTERNOON, MARCH 2, 1871. Single Copies Three Cents

The Newport Daily News
IS PUBLISHED BY
DAVIS & PITMAN,
At No. 13 Church Street,
Terms $6,00 Per Annum.

ADVERTISEMENTS will be inserted for $1,00 a square for the first insertion and 25 cts. for each subsequent insertion. Ten lines or less, Nonpareil type, (like this) make a square.

Transient Advertisements must be paid for in advance.

The privilege of yearly advertisers (of all classes) is limited to their own immediate business, in their own name. It does not include Legal Notices, Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices or Articles to be inserted in the reading columns will be charged fifty per cent. extra, reckoning by the space occupied.

No paper discontinued until arrears are paid, unless at the option of the publishers.

L. D. DAVIS. T. T. PITMAN

DR. J. MILLER'S
SOOTHING AND HEALING
BALSAM.

This valuable preparation has been before the public during the past nine years, and has wrought some of the most astonishing cures. The proprietor challenges the world to produce its superior as a remedy. It has gained a very wide popularity, and is eagerly sought for wherever its great curative virtues are best known.

It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the Side, Back or Shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the Face or Breast, Ear-Ache, Deafness, and Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin.—For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.

As AN INTERNAL MEDICINE, when taken in season it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaint, and Cholera Morbus. The "Balsam" has also given great relief in cases of Diphtheria.

No person need fear to use this medicine, as it is PURELY VEGETABLE in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

dec16-n&j

PROVIDENCE.

THE GREATEST INVENTION OF THE AGE
IS THE
COLD WATER
SELF-WASHING
SOAP.

No heating of water before you can commence to wash; no boiling your clothes after they are washed and filling the house with steam; no blueing required to make your clothes look nice and white; no washboard or machine required to remove the dirt and wear out your clothing. This Soap will do the work in one half the time, and do it better in Cold Water than any other Soap, with all the hot water and machines that can be used, and WITHOUT THE SLIGHTEST INJURY TO THE GARMENTS.

For washing Woolens, Prints, and any fabric where other soaps injure the colors, this leaves them clean and bright as new. For cleaning Jewelry, Silver and Plated Ware, Door Knobs, Paint, &c., by merely washing in the suds there is no equal to it.—Try it once, and you will use no other soap. Tell your Grocer that you want the Patent Cold Water Self-Washing Soap, made by R. E. Dwelly, 426 Eddy street, Providence, R. I., whose name will be on every bar and wrapper.

E. NEWBURY, Seedsman and Florist, Brooklyn, Conn., Importer and Dealer in Flower and Vegetable Seeds, Plants, Bulbous Roots, etc. Catalogues ready January. Free.

Brooklyn, Conn., 1871.

BRIGGS & BRO'S
Illustrated and Descriptive Catalogue
OF FLOWER & VEGETABLE SEEDS,
And SUMMER FLOWERING BULBS FOR 1871.

Will be ready for mailing by the middle of January, notwithstanding our great loss of type, paper, engravings, &c., by fire, which destroyed the Job Printing office of the Rochester *Democrat and Chronicle,* 20th December, 1870. It will be printed on a most elegant new-tinted paper, and illustrated with nearly

Five Hundred Original Engravings,

And two finely executed Colored Plates—specimens for all of which were grown by ourselves the past season from our own stock of Seeds. In the originality, execution and extent of the engravings it is unlike and eminently superior to any other Catalogue or "Floral Guide" extant.

The Catalogue will consist of 112 Pages, and as soon as published will be sent free to all who ordered Seeds from us by mail the last season. To others a charge of 15 cents per copy will be made, which is not the value of the Colored Plates. We assure our friends that the inducements we offer to purchasers of Seeds, as to quality and extent of Stock, Discounts and Premiums, are unsurpassed. Please send orders for Catalogues without delay.

Our Colored Chromo for 1871

Will be ready to send out in January. The Chromo will represent Forty-two Varieties of showy and popular Flowers, of natural size and color. We design to make it the best Plate of Flowers ever issued. Size, 19x24 inches. The retail value would be at least Two Dollars; we shall, however, furnish it to customers at 75 cents per copy, and offer it as a Premium upon orders for Seeds. See Catalogue when out.

Rochester, N. Y.

BACKACHE.

ALL DISEASES OF THE URINARY ORGANS, Inflammation of the Kidneys, Inflammation of the Bladder, or any affections that interfere with the functions of these organs always cause great pain and weakness in the small of the back and loins. To relieve this, a diuretic medicine is necessary.

Dr. Sargent's Backache Pills

have been thoroughly tested for the past thirty-eight years, and pronounced the most efficient diuretic ever discovered. They are purely vegetable and contain no mercury. Sold by druggists. Sent by mail on receipt of price, 50 cts. per box.

GEORGE A. KELLY,
Wholesale Druggist,
23 Wood St. Pittsburgh, Pa.

DR. S. S. FITCH'S Family Physician: 90 pages; sent by mail free. Teaches how to cure all diseases of the person; skin, hair, eyes, complexion. Write to 714 Broadway, N. York.

The Married Ladies' Private Companion contains the desired information. Sent free for two stamps. Address Mrs. H. METZGER, Hanover, Pa.

AVOID QUACKS.—A victim of early indiscretion, causing nervous debility, premature decay, &c., having tried in vain every advertised remedy, has a simple means of self-cure, which he will send free to his fellow-sufferers. Address J. H. TUTTLE, 78 Nassau st., New York.

FEMALE Irregularities and Obstructions.—Dr. W. Foster's Female Periodical Pills regulate and remove all obstructions. Nothing injurious to health. $1 a box. Office No. 110 Nassau st., Room 14, New York City. Sent by mail anywhere on receipt of the amount.

A Down East Essay on Eels.

Prof. Agassiz having written but little for several years on his favorite study, ichthyology, the editor of the Belfast *Journal* has commenced a series of papers on fishes indigenous to Maine waters. The following is his essay on eels:

The only reptile we have in this locality, in any wholesale quantity, is the eel. Its bite is not deadly except to a fish-hook, and after being once bitten, we never knew a hook to recover. Eels live best in water, though one will manage to survive an hour or two in a pan of hot fat over a hot coal fire. But water is their best hold, and they delight to root round in the mud at the bottom of the sea. An eel will out root a hog, and let him pick his ground.

Eels vary in size as much as darning needles, and some are not much larger when they first conclude to be eels. A lot of infantile eels playing in a pool of water look as much like vermicelli soup as anything we remember. As they are not called upon to die at a very early age, their life is of great length. We have known it to be over four feet. About a good sized eel to describe is the Bologna sausage size. Taper one end a little for a tail, cut a gash in the other for a mouth, and hang on a pair of ears about two inches long, and you have an eel at rest. We are not quick enough with a pen to describe them in motion, but any one who has ever seen Gen. F. E. Spinner's autograph on a greenback can get a very good idea from that. Next to a flea or a flash of lightning, you don't find anything much livelier than an eel. In catching them, all you have to do is to hook and pull them to the top of the water, and they will do the rest. As long as we remember it we shall never forget the first eel we caught. We were sitting on the cap of the wharf with our line in the water some fifteen feet below us, our hook baited with a clam's head (according to Robbins), when we felt a bite and pulled. As our hook came to the surface an eel made his appearance and commenced climbing up our line, hand over hand, with great speed, and shot into the air ten feet above our head and fell upon the wharf, where for fifteen minutes he executed such steps as would have drawn tears from the eyes of a French dancing master. We then grasped it to get our hook, but it slid through our hand like a dose of quicksilver, leaving it covered with a coating of slime which we have since learned is the basis of Spalding's glue. We cut off that eel and found our line much knotted and tangled. We counted eighty seven different kinds of knots. If there be any one who doubts this story, we can soon convince him of its truth by showing him the exact spot where we sat when we caught that eel.

Our crowded columns forbid us saying any more about this interesting fish, for we could write about eels to any length, because they are such a very eel-astic subject.

ANNUAL STATEMENT OF THE CONDITION of the PEOPLES FIRE INSURANCE COMPANY, of Worcester, in the State of Massachusetts, on the 31st day of December, 1870, made to the Insurance Commissioner of the State of Rhode Island.

(Incorporated 1847.)

The amount of the capital stock all actually paid up, in cash, is	$400,000
ASSETS.	
Value of real estate owned by the company	60,000
Amount of loans secured by first mortgage on real estate,	314,407
Amount of Public Securities,	105,830

NEWPORT DAILY NEWS.

THURSDAY, March 2, 1871

Repeal of Duty on Coal.

The House of Representatives, Tuesday, by an overwhelming majority, voted to repeal the duty on Pennsylvania coal. The bill for this repeal has been long on the lists, but the strenuous opposition of a few whose pockets were enriched by the monopoly, has prevented any action being taken upon it. This last move of the operators, aided by the railroads, has proved the straw which has broke, the camel's back. A glaring outrage has invested the question with an interest it never possessed before. The impolicy and injustice of the tax have always been apparent. But the scarcity of coal in the market, the exhaustion of the supplies at the Pennsylvania mines, and the extortion of many of the dealers,—are circumstances which have concentrated attention, as it never was concentrated before, upon the power of a gigantic monopoly, and the heartlessness with which that power is exercised. The coal companies are leagued with the transportation companies, and, together, they have the public at their mercy. The suffering for which they are now directly responsible is wide spread and intense.

It is of no avail for the supporters of this swindle to tell us that the coal with which they are to compete is bituminous, and cannot be used for the same purpose as the anthracite. For if that be true, what competition will there be for the owners of the anthracite, and why have they labored so hard for protection when they needed no protection? The tariff was established at the strenuous demand of the Pennsylvania monopolists, and taking out their delegation, there are hardly half a dozen men in the House who oppose its repeal. Which one fact, if we had no other, is sufficient to prove that there is a close connection between bituminous duty and anthracite monopoly. Allowing the coalfields of NovaScotia a free chance for competition, those mines would then be worked and coal would be shipped to all the North Atlantic States at a price so low as to commend its use for industrial purposes, and gradually it would be employed for various forms of domestic consumption. But the one great compensation of its free importation would be the regulating tendency it would have upon the anthracite monopoly. Were Nova Scotia coal abundant in the market at the present time, this gigantic swindle which has called forth the curses of thousands, would be impossible.

Whether the bill will be reached by the Senate or not this session, is uncertain. If it is not reached or is not acted upon promptly by that body, then the work so well commenced by the House is of no avail, for the bill cannot go over to the next Congress. It is the prevailing opinion, however, that the Senate will promptly concur with the House in passing the resolution.

The New York Ring.

There is a story of an apothecary's apprentice who, being unable to read a prescription which was handed him, avoided the difficulty by making a compound to which all the fluids in the shop contributed. A Tammany scheme just introduced into the New York legislature adopts a similar expedient. The bill in question is for a new avenue from the Battery in New York city to the Harlem river; and as if there was not a good supply of commissions in that unfortunate city a new one is provided for expressly to lay out the proposed street. But as the favorites of the ring already have lucrative positions, and as there might be some embarrassment in promoting one at the expense of the others, the new board is made to include the heads of all the existing commissions, together with the mayor. The remaining members are Marshall O. Roberts, Moses Taylor, Peter Cooper and one or two other leading citizens—most if not all of whom lately won an unenviable notoriety by giving the Tammany controller a certificate of good character, although he steadfastly refuses to comply with the law which prescribes when he shall publish statements of the city finances. The new bill was introduced by Senator Genet, but it will not be known whether it can be passed till Mr. Tweed is heard on it. It appears to afford a fair margin for profits if it be adopted.—*Advertiser.*

Spring Costumes.

The tendency to long dresses is a decided feature in the designs and models in course of preparation for Spring costumes. While at all the establishments of fashion-design this tendency is evident, at one of leading importance the Parisian artist engaged on patterns for spring costumes has gone further than any of the rest, and boldly trains all his skirts. They lie at least six inches on the floor in the back, while the front and side breadths are not short enough to show the instep of the boot while walking. Deep, broad-plaited flounces ornament the bottoms of these dresses. The flounce and skirt are of contrasting colors. The tunic quite long, and elaborately looped in the back and open in front, is flounced in the same style as the bottom of the skirt. The sleeves are pagoda-shaped, the same style of ruffings reaching from the elbow to the wrist, and the same is inserted in the armhole.

Proof Reading.

If the readers of the newspapers understood one half of the difficulties in procuring accuracy, instead of wondering and scolding at mistakes, they would be surprised that there are not more. How few readers appreciate the services of the individual who examines the "proofs" of a paper before it is printed. He is one of the most important agents to the production of a correct literature, and one of whom no reader seems to think. He has the most thankless of all the employments among men. Let him bring out a paper without a fault for weeks and weeks in succession, and nobody thinks of him. But let him allow an error to go uncorrected—as we happened to do in a five line church item a few weeks since—and immediately he is known to be censured and his paper subjected to ill-natured criticisms. He has no thanks for his labored patience, but blame if he is not faultless. He is certain of one or two things—forgetfulness or censure.—*Exchange.*

Our Providence Letter.

PROVIDENCE, March 1.

A most important day in the calendar both of the Church and the world, has gone by since last I attempted to group the passing events of the week for the perusal of your numerous subscribers. This was Wednesday last,—

ASH WEDNESDAY

to one party, the birthday of our country's father to another. Services were held in all the Episcopal and Roman Catholic churches in the morning at eleven o'clock, and in some of, the former in the afternoon and evening. It seemed quite a contrast to hear the solemn service inside and the jubilant music or booming cannon without. The services in the Episcopal churches during

LENT.

will be kept up as in former years; morning prayer being read not so frequently as evening prayer, which is had in the large churches as follows: Monday and Tuesday, Grace church; Wednesday and Thursday, St. John's; Friday and Saturday, St. Stephen's; Monday and Saturday, St. Andrews; Besides these services, some of the smaller churches have evening services twice a week, so that the most ardent worshippers can find spiritual refreshment or show their devotion daily.

WASHINGTON'S BIRTHDAY

was observed much as usual. The bells were rung at sunrise, noon and sunset, and at noon a salute was fired. The First Light Infantry made a parade in the morning, accompanied by the American Band, which cannot be excelled for military music. About noon the United Train of Artillery came out and the Kearney Cadets in the afternoon. Save that the day is a legalized holiday, the foregoing exercises are the only marks of its character. We are reminded now and then that we Americans are losing sight of the importance of this. However, it is probably no less true of this than of any other festival, which only a certain stratum of society really enjoys. When honest people (this is purely a commonplace term) had made preparations for retiring to rest, the annual

WASHINGTON BALL

came off at Howard Hall. This was given by the Light Infantry, and was one of the "nice" affairs, so to speak which is always given by them. This is the third large ball given this season (and of course was much like the others, and needs no extended remarks. Thursday was the annual

COLLEGE FAST DAY,

which was observed at Brown University, and at the Congregational churches. This was inaugurated by the American Board of Education about the year 1832, and the denominational measure came to be a general observance. The services at the college were substantially those of last year; a general prayer meeting in the morning, a sermon by the president in the afternoon, and a prayer meeting in the evening. The

EVENING SCHOOLS,

which have been taught for the past twenty weeks, closed on Friday evening last. There have been five in successful operation; on Meeting street, on South Main, on Richmond, on Harrison and on Harris avenue. One colored evening school has also been kept up, but the decreased attendance will hardly warrant its repitition another year. These schools have exercised much good influence in the education of the people, and are a real benefaction. The instruction given, the readiness to learn, and the deportment of the scholars are almost as much to be commended as in our day schools.

MINOR ITEMS.

Rev. Ira G. Bidwell preached at the Chestnut street M. E. church last Sunday evening on the "Conflict of the Ages." It was one of the ablest and most interesting of his productions.

Sunday evening also, Bishop McFarland endeavored to defend the Roman Catholic religion from the unpleasant truths that are frequently told about it.

At the Opera House, on the same night, Rev. Dr. Miner lectured on the Romish question.

The Union Hall Sunday afternoon lecture was by Rev. W. J. Potter.

The Light Infantry contemplate an excursion to Montreal next summer.

March has come in the most approved style.

The Olive Branch Temple of Honor realized over fourteen hundred dollars by their recent fair.

The chorus which is to sing at the dedication of Music Hall, is now practicing under the direction of Mr. L. T. Downes. Carl Zerrahn is to conduct at the public performance.

EWERS T. ROOLY.

The Northwest.

"Carleton" in his lecture, Monday evening, in Tremont Temple, speaking of the relations of New England to that "Empire," says:

"There was a time when Boston was largely engaged in commerce, when our wharves were crowded with shipping, and our harbor white with sails, a time when there was a large fleet of vessels engaged in the China trade; but now our wharves are left unto us desolate. The tea trade which once was in our hands has departed to return no more. New York has it now, but even the merchants of that city will soon be compelled to give it up. We are to receive our teas from the West. "Forty carloads of tea started eastward to-day," so reads a telegram from San Francisco a few days ago, and in that train were 1600 packages for Boston.

"It has been received in this city, and I dare say some of you have drank already the beverage decocted from those identical leaves, which 'cheers but not inebriates.'—It is but the beginning of the end. San Francisco and the new metropolis that will soon arise upon Puget Sound will take the tea trade of the continent. Chicago, St. Louis, New York, Philadelphia and Boston will receive their teas from the West. I speak of a new metropolis on the Pacific slope. Perhaps you may be incredulous in regard to it, but a quarter of a century ago I saw it in vision, and I see it still, though as yet it has no name or location. It is a vision of the future—the immediate future."

Comparing our chance for manufactories with that of England he says:

"The new American line will be far north of the tropics, and all extra expense in baling will be saved. The question is one of distance. London is 11,800 miles from Shanghai via the Suez Canal. Boston is 2386 by land and 6050 by water. With 3864 miles of distance and 20 days in time in our favor, raising our own cotton more cheaply than England can produce hers in India, we can see that the time is near at hand when we can drive our antagonist out of that distant field, and can take the trade of the 500,000,000 of people into our own hands. It is an increasing trade.

In 1860 England sent 224,000,000 yards to that country. She has increased the traffic by more than 100,000,000 yards since then. The prize is $50,000,000 per annum for our manufactures! It means the dotting of New England all over with towns, cities and villages—of new Lowells and Manchesters—of a thrifty, industrious population. We can make these New England States one great hive of industry, especially if our Government will adopt the policy which England has pursued so steadily—that of subsidizing her mail steamship lines.

About Home.

HEAD WIND.—Half a dozen vessels are now at anchor in our harbor, unable to get out, owing to the strong head wind.

STORES.—Improvements are still in progress. Mr. Christopher Handy is having two stores manufactured out of his house on Thames street.

CORRECTION.—In our notice of the Temple of Honor, yesterday, we accidentally omitted the name of one important officer, S. of the C.—David E. Melville.

ENTERTAINMENT.—The Artillery Company, it is reported, will hold a Calico Social on the 10th of this month. Success to the enterprise.

EXCURSION.—The Eureka Lodge of Good Templars of this city, will pay a visit to the Union Lodge at Portsmouth to-morrow night. It is presumed that there will be a good time.

PERSONAL.—Rev B. A. Chase has entirely recovered from his late indisposition.

Miss Flora McCormell, formerly of Haverhill, N. H., has assumed charge of the school heretofore taught by Miss Townsend, in the Mill street school house.

SPRING.—The beautiful weather we are having to-day, reminds us that Spring is here in reality, as well as in name. An exchange says "Spring has Marched in like a lamb." She has our permission to March out ditto.

LUNAR RAINBOW.—Last evening from about 9 1-2 to 10 o'clock, there was visible that extremely rare but beautiful spectacle, a lunar rainbow. For a space of about five times the diameter of the moon, there appeared a dense but brilliantly illuminated mist and around this was a complete circle formed of the most vivid and distinct rainbow colors, which for a short period were as strongly marked and as brilliant as those produced by sunlight. The colors began to fade by a quarter to ten, and at the latter hour had entirely faded to a white mist.

MR. EDITOR.—I noticed a few days since in the DAILY NEWS, that you report coal as selling at $11 per ton, in this city, thereby giving the impression that it could not be bought at a less price. But such is not the case, as I have not sold any at a higher price than $10 per ton for Red Ash, and $9.50 for White Ash. Not wishing to be classed with the "Ring," I take this means to inform the public.

J. H. GREENE,
Commercial Wharf.

New Bedford.

The *Standard* has just received a box of magnificent red and white roses and other flowers, reminding them Spring has come.—We would not object to a similar reminder ourselves.

Fall River.

The new hall of the Young Men's Christian Association, was dedicated with appropriate exercises last evening. Addresses were made by a number of clergymen. The exercises passed off very pleasantly indeed.

The fire department were called out yesterday morning, by an alarm raised by the burning of the old slaughter house on Rattlesnake hill.

The Department was again called out yesterday afternoon by the burning of a barn on North street.

Politics in the Pulpit.

Politics, then, should be a part, and a principal part, of the studies of the clergy. To discover and popularize the lessons that may be drawn from our history, to idealize the nation, and familiarize it in its unity to the minds of its members, is a most vital part of the moral teaching of the community. The phrase, political religion, may have very different meanings; there are two senses in which it signifies a hateful thing, but there is a third sense in which it is an admirable and necessary thing. It is a hateful thing when it means religion made the tool of a political party or governing class, as when the Church consecrated the absolutism of the Stuarts, or, on a smaller scale, when the parson preaches submission to the squire. It is a hateful thing when it means the Church interfering with public affairs merely with a view of strengthening its own position, of preserving its own influence, or privileges, or endowments. But when a Church is independent of political parties, and sure of the respect of the people, when it can speak with impartiality and with authority, then political religion means only the purifying of politics by connecting them with duty, honor and piety; it means only the discouragement of faction, the assertion of general principles, the keeping before the eyes of the people a political ideal. And so in the former senses political religion is only another name for corrupt religion, in the latter sense it is another name for worthy and noble politics.—*Lectures and Essays, By Y. R. Seeley, M. A.*

A Chinese Printing Office.

The editor of the New York *Observer*, in one of his letters to that journal under the title of "The Tour Around the World," describes at length a visit to the printing house of the Mission Press of the Presbyterian Church of the United States, where of course the printing is done in Chinese characters. We make the following extract: "On entering this extensive printing establishment, I was confronted with a series of amphitheaters, in the interior of each of which stood a compositor; and I saw at a glance the immensity of the work which every one who learns to read or speak or print the Chinese language has to encounter. Each one of these amphitheaters was what printers call a case, containing, not twenty-six letters, as in English printing offices, but more than six thousand different characters of types, and, with the combinations that are made, more than thirteen thousand. I do not much wonder that the Chinese adhere to their old method of engraving everything on wood that they print, for I should be very loth to attempt to hunt up many letters or words out of the six thousand boxes that I saw before me. And yet this mode of printing is a great improvement on the old."

Items.

New York is cheerfully anticipating cholera.

Fox hunting is the exciting sport at Pottsville, Pa.

Philadelphia has one hundred sea going vessels.

The New York Star tells of an inveterate ball goer "who has danced every dance since St. Vitus invented dances."

A Pittsburg man has sued his brother to obtain posession of the ambrotype picture of their dead sister.

A Western paper has an article on "the care of idiots," A contemporary says that paper is always dragging family affairs before the public.

A Canadian hotel once had a sign in the reading room, thus: "Gentlemen learning to spell will please take yesterday's papers."

Cahokia was one of the first places settled in Illinois, and it is now one of the last places in creation. Some of its citizens, born there seventy years ago, cannot speak English.

A Stratford, Conn., man has buried his fourth wife, and is looking about for the fifth. That he should marry again seems to be a foregone conclusion.

The six leading news companies of this country do a business, in selling newspapers and monthly magazines, of over eight millions of dollars per annum.

A New Bedford lady advertises instruction in cooking, especially bread making. If she succeeds, her niche in the temple of Fame is assured.

An unmarried preacher is wanted in Leavenworth. One, the advertisement says, desiring an engagement is requested to correspond with Sister Kate Hannon.

Disraeli is reported to have expressed his design to publish three new novels. Perhaps the report will count as one of the fictions.

A paper in Maine has four million subscribers—that is four subscribers by the name of Million.

Etiquette—An abhorance of eating with a knife, and no aversion to robbing another man's wife of her affection for her husband.

Pilfering from "Ella." Somebody pictures an adult at a juvenile ball, as migrating uneasily from one room to another, entertaining a by no means unfavorable opinion of Herod.

"Loss of a China packet ship!" exclaimed a liberal minded old lady, as she laid down a newspaper. "I should think so, when not even iron ones are always safe!"

Nature has written a letter of credit upon some men's faces, which is honored almost wherever presented.

New Iberia, La., publishes a new paper called the *Sugar Bowl*, and Humbolt, Ind., gives us the *Gimlet*. There is nothing like a good name.

A school teacher in Iowa having a grudge against the father of one of his pupils, whipped the boy because he was not able to tackle the old gentleman. He was fined $20 for the luxury, and discharged from his position.

It is said that Mr. James Anthony Froude proposes to write a history of Ireland under the old oriental anti-Roman Catholic laws, and after embodying the outline in a course of lectures, will deliver them in the principal cities in the United states.

Colonel Whiteley, chief of the United States Detective Service, arrested William B. Dow, a notorious counterfeiter and burglar, in Hooksett, N. H. Dow is supposed to have been connected with the robbery of several banks in Maine and New Hampshire.

Some of our exchanges say that the largest room in the United States is in Rhode Island, and that its particular location is in a Fall River cotton mill.

Explosive compounds may be classed, in the order of their dangerousness, as follows:

Kerosene.
Nitro glycerine.
Dynamite.
Cincinnati whiskey.
Gunpowder.
Doughnuts.

The blasting power of the last named mixture is not generally known; but a gentleman somewhere out West has lately been blown up and seriously injured by the bursting of a doughnut.

Wisdom.

A Polish monarch having quitted his companions when he was hunting, his courtiers found him a few days after, in a market-place disguised as a porter, and lending out the use of his shoulders for a few pence.—They were so much surprised that they were doubtful at first whether the porter could be his majesty. At length they ventured to express their complaints that so great a personage should demean himself by so vile an employment. His majesty, having heard them, replied: "Upon my honor, gentlemen, the load which I quitted is by far heavier than the one you see me carry here: the weightiest is but straw when compared to the load under which I labored. I have slept more in four nights than I have during all my reign. I begin to live and be king to myself. Elect whom you choose. For me, who am so well content, it would be madness to return to court."

American Eating.

"Well, then, let me tell you, that during my six years' residence in America, I saw nothing that surprised me so much as the way in which the Yankees eat and drink. Why, I really think it is worth an admission fee to stand at the end of a dining room and see a hundred Yankees at the dinner table. Each one has something to eat in one hand and something to drink in the other. When the food hand goes up, the drink hand goes down, and when the food goes down the drink hand goes up. It always reminded me of one of those walking beams on a steamboat—when one end is up the other end is down. Now, sir, I think that is the reason the American people are such dyspeptics. Why, sir, I believe that in a world's exhibition of dyspeptics your country could show more in number, and stronger in quality, than all the rest of the world."—*Dio Lewis' "Talks About People's Stomachs."*

Vose & Son's Pianos

are sold by Messrs. Hibbard & Hawkins, No. 199 Westminster street, Providence, as low as $275. These gentlemen have also on hand higher priced instruments of the same make, as well as the superior instruments of Decker Brothers' manufacture.

TELEGRAMS.

FROM EUROPE.

The German Entry into Paris—Preparing for the Event by the people. The Term of Occupation.

PARIS, March 1.

The majority of the newspapers in the city will suspend publication to day, and will, in all likelihood, not resume during the occupation of the city by the Prussians.

The Bourse, the theatres and all places of public business or amusement will remain closed during the period of occupation.

BORDEAUX, March 1.

The National Assembly met in this city yesterday, when President Thiers read the preliminary treaty which had been submitted for the ratification and approval of the Assembly.

During the reading several new and important points were disclosed, one of these being that Germany grants a delay to the inhabitants of the annexed provinces in which to choose their nationality under the preliminary treaty, after the ratification by the Assembly.

LONDON, March 1.

President Thiers has addressed an appeal to the Parisians, counselling them to remain quiet and orderly during the Prussian occupation of the capital, and adverting to the evils which might arise in the event of an injudicious patriotism overcoming the prudence which the occasion shall dictate.

VERSAILLES, March 1.

On the night of the 27th ult., at a banquet the Emperor showed his guests the preliminary treaty of peace, signed an hour before, and accepted the felicitations of the august personages present. He embraced Von Moltke and Von Roon, and expressed deep gratitude for the invaluable services of these officers.

At present the Germans may be requested by the authorities of France to occupy the city until anarchy and riot are subdued, and respect for law is insured. The Government of which M. Thiers is at the head, is resolved to maintain authority and do its best to restore order.

There is reason to believe that it is the intention of the French Government to disband the whole Imperial army immediately after it is released from captivity in Germany and organize a new and gigantic system of national defence.

PARIS, March 1.

The extreme agitation and excitement which prevailed throughout the city continued yesterday, notwithstanding that the utmost efforts of the authorities have been used to secure the adoption by the citizens of a calm and dignified course during the entry.

LONDON, March 1.

The widow of Nathaniel Hawthorne, the celebrated American writer, died on Sunday at her residence in Kensington.

LONDON, March 1.

Emperor William has written to the Czar Alexander, a letter announcing the terms of peace, and concluding as follows:—"We have arrived at the end of a glorious and bloody war, which was precipitated by the frivolity of the French. Prussia remembers that you prevented the spread of the war. God bless you!" The Czar replied that he shared the joy felt by his illustrious brother, and hoped for a durable peace. He had proved a devoted friend. The happiness and glory of Russia and Prussia were now ensured.

FROM WASHINGTON.

Personal Encounter.—Appointments, &c.

WASHINGTON, March 1.

The Senate in Executive session yesterday confirmed the following nominations: Henry Cooke, Governor of District of Columbia; J. H. Coggeshall, U. S. Marshal for the Southern District of Rhode Island; Geo. L. Andrews, of Massachusetts, Professor of French at the Military Academy.

The House was lively from the start off to the wind up yesterday. At times every voice was lost in the general confusion, and unsophisticated spectators, looking down from the galleries, could only stare aghast at the uproar below. Mr. Dawes, in charge of his omnibus bill, battled bravely, and skillfully managed to make the port with the disabled hulk. Confusion was redoubled when the motion was made to confer with the Senate upon the Southern Pacific Railroad bill, and the irritation was not allayed by Mr. Ingersoll's successful motion to give a national charter to the Cincinnati Southern Railroad. During all the time these measures were pending the members were shooting about hither and thither, or trying to get recognized by the Speaker, who managed the menagerie with marvellous dexterity.

MARCH, 1.

The House voted more money to-day to contestants in election cases; in one case $2,500 was voted to a gentleman who simply claimed that Congress ought to have passed an act giving his State an additional representative.

THE APPROPRIATION BILLS

are in a better condition to night and there is hope that they will be worried through before noon of Saturday.

THE NEW CONGRESS.

The house will adjourn over from Saturday to Tuesday or Wednesday, when the committee of elections will be announced.

Among the new members of the House on the floor this afternoon, was Shellabarger, of Ohio, who distinguished himself in the Thirty-ninth and Fortieth Congresses. He is one of the ablest men elected to the next Congress, and will have a prominent place in the Committee.

The House has been at work nearly all day upon business on the Speaker's table. On the unanimous agreement of yesterday that a two-thirds vote should be required to pass any of these bills, so far have failed, though a few important to individuals got through this gauntlet.

Silhouettes.

In the first half of the 18th century all Paris laughed at Monsieur Silhouette. Minister of Finance he was, to be sure, but he was so stingy and so ingenious, that his makeshifts for economy's sake became a proverb in people's mouths. All sorts of cheap articles that were sold, were advertised as "Silhouettes," simply by reason of their cheapness. But Monsieur Silhouette was not to be disheartened or deferred. He kept on inventing economies, until at last, in his eagerness to cut down the royal expenditures, he drew the string too tight, cut off his own political head, and disappeared from history. But we are sorry for his misfortune, because except for him we might never have had Paul Konewaka. He it was, this stingy Minister of Finance, who invented the kind of picture which to day is called by his name. Perhaps he made the first ones of Madame Silhouett's old black silk gowns. Who knows? This however, is only our surmise. But the rest is history.—*In Scribners Monthly for March*

GENERAL ASSEMBLY.

January Session at Providence.

WEDNESDAY, March 1.

Senate.

The Senate met at eleven o'clock this morning, pursuant to adjournment, the Governor in the chair.

The special order of the day, the bill to establish a State Normal and Training School, came up.

The Senate consented to the substitution of the printed for the original bill.

Mr. Powel, before proceeding further rose to ask information as to what the committee on education proposed to do when this bill would be passed. He considered the subject a most important one to the people of Rhode Island, and if the tax payers of the State wished for a Normal School, they ought to have a good and efficient institution, one that would not send forth half educated teachers.

Mr. Powel gave an instance of the difficulty of obtaining good teachers. A teacher competent to take charge of a High school had been wanted recently, and several of the applicants, some with good recommendations from committees in Massachusetts, were unable to spell simple words with correctness.

On motion of Mr. Jilson, of Woonsocket, the Commissioner of Public Schools was invited to address the Senate.

The Commissioner made a somewhat extended address, urging that appeals had been made from all parts of the State, commencing from Providence, for the establishment of a State Normal shool.

The bill was then taken up by sections.

A motion of Mr. Powel, providing for the establishment of the school in the city of Providence, was lost, Senator Peckham suggesting that the matter be left to the Board of Education.

The bill then passed, Mr. Peckham dissenting.

Mr. Freeman, from the committee on militia, reported back certain matters relating to the election of a commanding officer of the Pawtucket Light Guard, without recommendation. He pointed out that jurisdiction in the matter was vested in the Commander in Chief.

On motion of Senator Powel, the committee were discharged from the further consideration of the subject, and the papers relating to the matter laid on the table.

An act to enable the city of Newport to establish an industrial school, was referred to the committee on the judiciary.

Adjourned to Thursday next at eleven o'clock.

House.

The House met as per adjournment. Mr. Speaker Barstow in the chair.

Mr. Clarke, of Providence, called up the resolution of instructions to our Senators and Representatives in Congress in regard to duties on coal.

Mr. Sheffield of Newport, could not see how any Congressional legislation would help the matter.

Mr. Barstow, of Providence, conceded that the evil was a great one, and also an evil it would be difficult to reach. The coal mining companies of the country were a great combination of themselves, and in his mind the cause of the trouble was the regulation of the wages of the miners by these great combinations, and it was not wonderful that these combinations of miners have arisen to protect their rights. He doubted if the Assembly or Congress could do anything to weaken these combinations on the one side or the other.

Mr. Sheffield, of Newport, opposed the passage of the resolution, stating that the National House of Representatives yesterday voted in accordance with the spirit of the resolution, and that the General Assembly have no right to instruct Senators and Representatives how to vote. He spoke at length upon the interests and combinations of Pennsylvania and of the country.

The resolution was opposed by Mr. Stephen Harris of Warwick. On motion of Mr. Boyd of North Providence, the resolution was laid on the table by a vote of 21 yeas to 14 nays.

The following papers were received from the Senate and thus disposed of:

The communication of Hon. E. R. Potter in regard to the Law Library, was received and referred to the committee on the judiciary.

The resolution authorizing the settlement of the accounts of Tillinghast & Mason, and Nathaniel Church, against the State, was passed in concurrence.

Adjourned till Thursday at half-past ten o'clock.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

January Session, A. D. 1871.

AN ACT in amendment of and in addition to Chapter 164 of the Revised Statutes "Of the Supreme Court, and of the several Acts in amendment thereof and in addition thereto.

It is enacted by the General Assembly as follows:

SEC. 1. Cases in equity, motions, applications and interlocutory motions may be heard and determined by one justice of the Supreme Court.

SEC. 2. For hearings, and for making, entering, and modifying orders in equity and issuing writs therein, the Court shall be always open except on Sundays and legal holidays.

SEC. 3. If upon the presentation, or hearing of a cause, motion or application before a single justice of said Court, the justice is of the opinion that the question involved is of such importance that the matter ought to be determined by the full Court, before further proceedings are had, he may report the case or question to said Court for the purpose of being heard and determined therein, and the hearing before the full Court shall proceed in the same way and with the same effect as if it had been heard before a single justice.

SEC. 4. Suits in equity, and all motions and applications therein pending in one county may, by order of Court, or by one of the justices thereof, be heard and determined in any country, and all orders and decrees made in such hearings shall be transmitted to the Clerk of the Court in the county to be entered where such shall be pending.

SEC. 5. No suit or motion in equity shall be heard, except a motion for preliminary injunction, or for a writ of *ne exeat*, until reasonable notice of such hearing shall have been given to the adverse party or to his attorney.

SEC. 6. In the event of either party demanding a jury trial of questions of facts raised by the pleadings upon issues adapted to such questions to be framed under the direction of the Court, or of some justice thereof, either party may call witnesses or use depositions as in the trial of cases at common law.

SEC. 7. The Court, or any justice thereof, may order the oral examination of witnesses to open court in any matter, and may appoint some suitable person to report the testimony of such witnesses. The expense of such report shall be paid in the first instance by the party introducing the evidence and shall constitute a part of the taxable costs in such cases.

SEC. 8. The Court may issue writs of seizure or execution in common form when such process appears to be an appropriate method of enforcing decrees in equity.

SEC. 9. Chapter 892 of the Statutes is hereby repealed, but in all cases, motions, and applications in equity which have already been heard before a single justice of the Supreme Court, an appeal may be taken, and appeals which have already been taken may be proceeded with as if the said Chapter was yet in full force.

SEC. 10. This act shall take effect from and after the passage thereof.

A true copy—Attest:
JOHN R. BARTLETT,
Secretary of State.

BARTON'S LOTION, a preparation composed entirely of vegetable oils, is the best remedy for curing frost-bites and chilblains. Persons who have been troubled with chilblains for years, have been cured with this Lotion after all else had failed, and we have heard of no failure in any case of the many hundreds who have used it, but they all say if they had only known of it before, it would have saved much money and pain.—*Warren Gazette.*

Heat.

If your hens have been well cared for thus far, they will now commence laying. See to it that they have warm and comfortable quarters, plenty of calcined bones, lime, coal ashes and charcoal. Give them scraps of refuse meat an abundance of other food and water, and they will make a proper return therefor. We are not of the number of those who have unbounded faith in fortunes to be derived from this source. But if they can ever be expected to make any profitable returns, now is the time when eggs are so high and fresh ones so difficult to procure. *Try them.* Don't expect thirty or forty hens to lay in one nest or box. They may sometimes wait for their turn like persons at the post-office or barber's shop; still they find it somewhat inconvenient. The fact is farmers are too careless about making suitable provision for the comfort and convenience of their fowls. They are left to shift for themselves. Such treatment is very poor economy. The hens seem to get discouraged and do as they are done by. Don't expect verything when you give simply nothing.

Burning and Shaking.

By a ridiculous misapplication of language, invalids are sometimes said to "enjoy very poor health," but it is not on record that any human being was ever spoken of as enjoying chills and fever. And yet there are thousands, at this moment, in one or the other of the two stages of the disorder, who might just as well have avoided it as not. If there is anything demonstrable in therapeutics, it is that Hostetter's Stomach Bitters is an antidote to intermittent fevers. No instance can be cited in which it has been taken, either as a safeguard against this class of diseases or as a remedy for them, and failed to produce the desired effect. The season when malarious fevers are rife, has commenced, and no inhabitant of any district subject to their visitations should be without this great preventive and remedy. Indeed, it is a most potent protection against all the ailments which prevail in the spring months. From marsh and pool, and from all moist soils are now rising the mephitic elements which give birth to fever, indigestion, biliousness, colics, and a whole host of epidemic and other maladies. Aid the system to resist them. Energize and regulate all the animal functions with this reinforcing agent. This precaution is as necessary in cities as in new settlements, for malarious fevers are now almost as common in the great centres of population as on the borders of the southern bayous and marshes and the rich agricultural regions of the west. The preventive and remedy is accessible to all. Who will be unwise enough to brave recklessly the danger it would avert?

☞ Undertakers grow rich and grave yards reek with the mouldering bones of thousands who prematurely fall as victims to those relentless destroyers, Catarrh, Bronchitis and Consumption. The two latter diseases are but the offspring of the former, which is easily and surely cured by using Dr. Sage's Catarrh Remedy, while for the cure of the two latter diseases nothing equals Dr. Pierce's Alterative or Golden Medical Discovery. Both medicines are sold by druggists, or the Catarrh Remedy may be obtained by enclosing sixty cents to Dr. R. V. Pierce, Buffalo, N. Y.

☞ Dr. Sage's Catarrh Remedy produces a perfect cure of the worst cases of Catarrh. "Cold in the Head," Chronic and Catarrhal Headache, as hundreds of testimonials from well known citizens and eminent physicians who have used it in their practice abundantly testify. It is mild, pleasant and unirritating. The proprietor offers $500 for a case of Catarrh that he cannot cure. Sent to any address by mail on receipt of sixty cents. Address R. V. Pierce, M. D., 193 Seneca street, Buffalo, N. Y. Sold by druggists. Remember that Dr. Pierce's private Government Revenue Stamp is on every package of the Genuine.

THE RAPID AND UNIVERSAL POPULARITY OF COLGATE & CO.'S TOILET SOAPS, is simply due to their excellence. They are conscientiously made of the best and purest materials, and are always what they pretend to be. Ladies are so often cheated in purchasing, that when they find one thing they can rely upon they stick to it.

THOMPSON'S POMADE OPTIME, as a dressing for the Hair is all that is required: purely vegetable and highly perfumed, it softens, improves and beautifies the Hair, strengthens the roots, and gives it a rich, glossy appearance. For sale by all druggists. Price 35 and 75 cents, per bottle.

CHINESE TOOTH ACHE DROPS, put up by F. C. Wells & Co. This article has been used for many ages by the Chinese as an infallible and almost instantaneous cure for this most painful affliction.—For sale by all druggists. Price 25 cts. per bottle.

BUTLER'S BALSAMIC MIXTURE OF CUBEBS AND COPAIBA.—This favorite, well-known and reliable remedy for the speedy cure of "*the complaint*," is for sale by all druggists. Price $1 per bottle.

SHERMAN'S CORDIAL AND WORM LOZENGES, SHERMAN'S POOR MAN'S PLASTERS AND ORRIS TOOTH PASTE are still to be obtained from any druggist, prepared from the original receipts, and sold at the old prices. feb17-m&j

To all the housekeeper, we continue the offer of the WEED SEWING MACHINE, noted as one of unsurpassed excellence, for twenty new subscribers and $60. Sixty dollars is the price for this superior instrument. We have sent many of the WEED MACHINES for new subscribers, in some cases to great distances,—to Cobra in and California. They have given the highest satisfaction to those who have used them.—*Boston Watchman and Reflector.*

Neuralgia and Headache can be cured by taking a dose of HARTONE'S LOTION and Bathing the part affected. Hundreds of bad cases have been cured by thus applying this valuable medicine, and none will be without it who have used it once. For sale by Druggists generally. m2

The Sole Object in Life is to make that life the best and most comfortable we can. If we have our soles fastened with CABLE SCREW WIRE we are assured that our boots and shoes are the most comfortable, durable, healthful and economical in the market. All our best dealers sell these boots and shoes.

An Old Custom, but a Sensible One! In former years the heads of the household would call up and administer to every member some favorite medicine and tonic, to prevent the diseases that follow the change from the cold winter to the gentle spring. That custom ought to have been handed down from generation to generation, and we now advise its continuance, by the use, as the spring opens, of Hoback's celebrated remedies. His Pills, Panacea and Bitters will prepare the system for the change.

Fresh Garden, Flower, Fruit, Herb, Tree & Shrub, and Evergreen Seeds, prepaid by mail, with directions for culture. Twenty-five different packets of either class for $1.00. The six classes $5.00.

50,000 lbs. Evergreen and Tree Seeds; Apple, Pear Cherry, &c.; Grass Seeds; Beet, Cabbage, Carrot Onion, Squash, Turnip, and all Vegetable and Flower Seeds, in small or large quantities; also small fruits, Stocks, Bulbs, Shrubs, Roses, Verbenas, &c., by mail, prepaid. New Golden Banded Japan Lily, 50c. Priced Descriptive Catalogue sent to any plain address, gratis. Agents wanted. Wholesale List to Agents, Clubs and the Trade. Seeds on Commission.

H. M. WATSON, Old Colony Nurseries and Seed Warehouses, Plymouth, Mass. Established in 1848.

jan26-3m M & S ed]

A LADY writes:—"Before having tried Pratt's Astral Oil, I was prejudiced against it. But I was finally induced by a neighbor to buy some. That was six months ago; since then I have been burning it constantly. Two nights ago, one of my little girls, while playing, upset the lamp, scattering the oil over her and her sister, but no harm resulted, the oil neither taking fire nor exploding. I am satisfied that the oil is perfectly safe."

The above is but one of many similar testimonials. Don't endanger your lives by burning kerosene, but buy Pratt's Astral Oil. By using this, danger is guarded against.

☞ The "ASTRAL OIL" may be obtained of P. BREER, 13 Broad Street, Sole Agent for Newport, R. I. feb 20d-1w

DR. SMITH,

No. 129 THAMES STREET.

WOULD invite attention to the "Combination Suction Plates," said by competent Dentists to be the greatest improvement in Mechanical Dentistry in thirty years. Insuring perfect security against rocking, moving or falling. Preventing particles of food from working under, and the amount of suction increased at least ten times over any plate in use. Equally applicable to the most difficult mouths or to partial sets.
He is also using a new base for Artificial Teeth, which promises to be incomparably superior to rubber. Combining strength, beauty and cleanliness with perfect freedom from taste or smell. nov21

Co-Partnership.

THE undersigned would give notice that they have formed a co-partnership for the transaction of the

AUCTION SALES.

FARM AT AUCTION.

THE HOMESTEAD of the late Pardon Almy, situated in Little Compton, R. I., will be sold at Public Auction, on the premises, on WEDNESDAY, March 8th, 1871, (or if stormy the first fair day,) at 11 o'clock, A. M. The Farm contains about 160 acres with a fair proportion of Meadow and Pasture, and also a portion of a valuable Cedar Swamp. The grounds are well watered, well fenced, and under a good state of cultivation. On the farm is a cottage house, barn, crib, carriage house, and wood house. The situation commands one of the finest prospects in this part of the country, including a view of Mount Hope on the North, the islands in Buzzard's Bay on the Southeast, the Atlantic Ocean on the South, and Narragansett Bay and the whole length of the island of Rhode Island on the West.
At the same time and place will be sold the stock and farming utensils, and a small lot of household goods. Also a wood lot in Little Compton, and one undivided half of a wood lot in Tiverton. For further particulars apply to
CHARLES ALMY, New Bedford.

LEGAL NOTICES.

NOTICE.

WHEREAS, default has been made in the payment of the interest on certain bonds issued by the Newport and Wickford Railroad and Steamboat Company, under a mortgage executed by said Company on 1st May, 1870, to Henry Ledyard, Edward King and John T. Bush, trustees, to secure the payment of said bonds, which mortgage is recorded in the offices of the clerks of the city of Newport and town of North Kingstown, in the State of Rhode Island, and by the terms of said mortgage all said bonds having become due and payable; and whereas, it is stipulated therein that the said trustees shall, on the written request of a majority of the holders of said bonds, cause the franchises and all the corporate property of said corporation described in said mortgage, to be sold at public auction, at Newport, in the State of Rhode Island, after thirty days' notice of the time, place and terms of sale; and whereas, said trustees have been duly requested, in writing, by a majority of said bondholders, to sell the property described in said mortgage according to the conditions contained therein. Now, therefore, the undersigned trustees, as aforesaid, hereby give notice that they will sell all the franchises and corporate property of said Newport and Wickford Railroad and Steamboat Company, as described in said mortgage, at Public Auction, at the City Hall of the City of Newport, in the State of Rhode Island, between the hours of eleven A. M. and one P. M., on TUESDAY, March 7th, 1871. The sale to be to the highest bidder for cash.
Newport, 30th January, 1871.
(Signed.) HENRY LEDYARD, EDWARD KING, JOHN T. BUSH, } Trustees.
feb4-tf

At a Special Court of Probate of the City of Newport, holden Tuesday, Feb. 21st, 1871.

UPON the petition in writing, to this Court, of HENRY S. FEARING, GEORGE R. FEARING and FREDERICK SHELDON, Executors of the last Will and Testament of DANIEL B. FEARING, late of the City, County and State of New York, deceased; by Wm. P. Sheffield, Attorney, presenting therewith an exemplified copy of the said last Will and Testament of him, said Daniel B. Fearing, and of the Probate thereof, as the same appears of record in the office of the Surrogate's Court, in said City of New York, under the seal of said Court, and representing to this Court, that there is real estate named in the said Will, which passes thereunder, situate in the City and County of Newport in the State of Rhode Island, and praying that the said Will and Probate may be filed and recorded in the registry of the Court of Probate of Newport, according to law, and that letters testamentary thereon be issued to them as Executors thereof in Rhode Island.
The same is read and received, and the Court assign Thursday the 9th day of March next, at 3 o'clock, P. M., at the Probate Office in the City Hall, in Newport, as the time and the place for taking the same into consideration, and it is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News, to the end that any person may appear and show cause, if any, against the filing and recording the same.
BENJAMIN B. HOWLAND,
feb24 Probate Clerk.

Court of Probate, City of Newport, February 13th, 1871.

THOMAS COGGESHALL, Guardian of the late PHEBE CLARKE, a person of full age, deceased, presents his final account with the estate of his late ward for allowance.
The same is received, and is referred to Monday the 6th day of March next, at 10 o'clock, A. M., at the Probate Office in the City Hall, in Newport, for consideration, and it is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News.
BENJAMIN MARSH, 2d,
feb17 Probate Clerk, pro. tem.

Court of Probate, City of Newport, February 13th, 1871.

JOHN C. STODDARD, presents an instrument in writing dated the 12th day of December, 1870, purporting to be the last Will and Testament of BENJAMIN STODDARD, late of Newport, deceased, and in writing therewith prays that the same may be proved, allowed and recorded, as the last Will and Testament of said deceased, and that letters testamentary be granted to him the Executor named therein.
The same is received, and is referred to Monday the 6th day of March next, at 10 o'clock, A. M., at the Probate Office in the City Hall, in Newport, for consideration, and it is ordered that notice thereof be published for fourteen days, once a week, in the Newport Daily News.

WIT AND HUMOR.

A New England spinster, who went out to Nevada about a year ago, writes home that she has already a husband, a pair of twins, and hasn't got much acquainted yet.

An Irish gentleman and his wife, residing in Paris during the siege, were reduced by hunger to kill their favorite dog, "Pet," and serve him up for dinner. "Ah," said the gentleman, inspecting the animal's bones after the meal was over, "How poor 'Pet' would enjoy these bones if he were alive!"

At the late meeting of the Presbytery, brother W——— said: Early in the ministry, he and another brother were conducting a meeting in which there was much religious interest. An old man gave expression to his joy by shouting, and continued it until it began to interrupt the services. Brother H. said to brother W., "Go and stop that old man's noise." The shouting man at once became quiet. Brother H. asked brother W. what he said to the old man to make him so quiet. Brother W. replied, "I asked him for a dollar for foreign missions."

Empire Sewing Machine,
LOCK STITCH.

—o—

RECEIVED THE FIRST PRIZE.

AT THE

Great Fair of the American Institute,

IN NEW YORK, OCT. 26, 1867,

AND HIGHEST PREMIUM FOR

Best Manufacturing Machine

—AT—

Paris Exposition, July, 1867.

—o—

NO. 1 FAMILY MACHINE.

THIS MACHINE is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

It has a straight Needle, Perpendicular Action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the coarsest to the finest number.

SPECIAL ATTENTION IS CALLED TO OUR NEW IMPROVED

Nos. 2 & 3—Manufacturing Machines.

They have been thoroughly tested on every description of Cloth and Leather Work, running by Steam Power at the rate of

1,200 Stitches per Minute.

Producing more than double the work of any other Shuttle Machine now in use; the stitch is tight, uniform and beautiful; they are simple in construction, easily understood, and not liable to get out of order, run light and are comparatively noiseless.

The Tailoring or Leather Work we claim that they are not only equal, but much superior to any other machine that has ever been offered to the public.

SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

TWENTY YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

Address Dr. L. Dix, No. 21 Endicott Street, Boston, Mass.

dec31—3taw—1 year.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 21 Endicott Street, Boston.

Letters requiring advice must contain one dollar to secure an answer. Jan1—3taw—1y

W A T E R S
New Scale Pianos,

With Iron Frame, Overstrung Bass and Agraffe Bridge,

MELODEONS AND CABINET ORGANS,

The best Manufactured: Warranted for 6 years.

Fifty New and Second-hand Pianos, Melodeons and Organs of six first-class makers, *at low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand Instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

INSURANCE.

ÆTNA
INSURANCE COMPANY

INCORPORATED 1819.

Losses Paid in Fifty Years
$26,000,000.
Present Cash Assets,
$5,500,000.

THE LARGEST COMPANY IN AMERICA!

A Policy in this Company costs no more than in others of doubtful reputation.

Losses Fairly and Promptly S

L. D. DAVIS,

INSURANCE.

Look Well to Your Insurance!

The possession of a Policy does not always protect a property holder against loss by fire. The subscriber is prepared to issue Policies in Companies that for more than

FIFTY YEARS

have been known to the public as honorable and reliable. One of his Companies is the oldest in the United States and has paid $24,000,000 in losses.—Another has the largest capital, and has paid over $25,000,000. These two, together, have more cash assets with which to pay losses than any ten average companies. Their rates are as low as safety, and honorable dealing will allow, but they do not pretend to compete with "Wild Cat" Corporation.

au3 L. D. DAVIS.

ROGER WILLIAMS
Insurance Company,

L. D. DAVIS

FIRST MORTGAG
7 Per Cent. Gold Bonds,
On a Completed Road,

FREE OF U. S. TAX,

AT 90 AND ACCRUED INTEREST IN CURRENCY.

Burlington, Cedar Rapids and Minnesota Railway.

The completion of this Road has given to these Bonds an established character equal to any mortgage issue dealt in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment, with Governments or any other security.

These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota—shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 50 miles.

The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.

A contract has been secured with the Chicago, Burlington and Quincy Railroad Company obligating the latter to invest 50 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the Bonds, and establishes a large sinking fund for their redemption.

The convertibility privilege in these bonds enables them to be exchanged for stock, at par, at any time. This secures to the holder, at his option, a share in any excess of earnings over the interest obligation.

An exchange of Government securities for these bonds returns 9 1-2 per cent. interest, instead of 6 per cent., which is all that Governments pay at present price, besides leaving an immediate gain of about 20 per cent. in price for reinvestment.

All marketable securities taken in exchange free of commission and Express charges.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State St., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART."

Northern Pacific
RAILROAD
BONDS,

For Sale by
L. D. DAVIS,

feb6

NEW 7-30 GOLD LOAN!

Safe! Profitable! Permanent!

JAY COOKE & CO.

Offer for Sale at Par and Accrued Interest the

First Mortgage Land Grant Gold Bonds

OF THE

Northern Pacific Railroad Co.

THESE bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling-stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-Two Thousand Acres of Land to each mile of Road.

The Bonds are free from United States Tax; the Principal and Interest are payable in Gold—the Principal at the end of Thirty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity, be received AT TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first class security. Persons holding United States 5-20's can, by converting them into Northern Pacific's, increase their yearly income *one-third*, and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the investor.—For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks employed to sell this Loan.

Money Cannot Buy It!
For Sight is Priceless

BUT THE

DIAMOND SPECTACLES

WILL PRESERVE IT.

THE DIAMOND GLASSES,

MANUFACTURED BY

J. E. SPENCER & Co., N. Y.

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the

MOST PERFECT,

Natural, Artificial help to the human eye ever known. They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond" on account of their hardness and brilliancy.

The Scientific Principle

On which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner,

In frames of the best quality, of all materials used for that purpose.

Their Finish and Durability

CANNOT BE SURPASSED.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

Carbolic Tablets,

Prepared by DR. WELLS,

The most important discovery of the age. Is this wonderful HEALING and CLEANSING agent for all diseases or weakness of the RESPIRATORY ORGANS, SORE THROAT, SUDDEN COLD, HOARSENESS, CATARRH, ASTHMA, DRYNESS of the THROAT, or WINDPIPE, DISEASE of the LUNGS and for all irritation of the mucous membrane.

All vocalists and public speakers who speak and sing without effort, use these Tablets, their effect in clearing the voice is simply astonishing as can be shown by numerous certificates.

Dr. WELLS' CARBOLIC TABLETS

act directly on the mucous membrane and should be promptly and freely taken in all exposure or violent change of weather, as they equalize the Circulation of the Blood and thus ward off all tendency to colds and lung difficulty.

The proprietors would say, all first-class medicines have their imitations, and they would

CAUTION the public against imposition by having other medicines thrust upon them in place of these admirable Tablets.

MANHOOD: HOW LOST, HOW RESTORED.

JUST PUBLISHED, a new edition of **Dr. Culverwell's Celebrated Essay on the** radical cure (without medicine) of SPERMATORRHOEA, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY, and Fits, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the Publishers,

CHAS. J. C. KLINE & CO.,

PUMPS,

Bells, Keys and Skates.

Friends, to JOHN O. WEAVER, Jr's go,
And there you'll find if you do not know,
Pumps, both Copper, Iron, Lift and Force,
And all for a very little cost,
We also have a Pump that will not freeze,
You raise the handle—water comes with ease,
Bells, have we, and ones that'll ring,
And to your door your servant bring;
Keys, we have too, without number—
We'll fit them too without a blunder;
Skates we sharpen so you need not fail,
This pleases the children both great and small,
And now kind friends don't forget the place
For the BIG KEY is looking you in the face.
